

I understand that the station I listen to (K-Love, 94.3 FM) is in danger of being replaced by something else because of LPFM stations. K-Love is an important station for our family, as well as our church family. Please do not take this away from so many people who depend on it on a daily basis. It is a ministry outreach. We need positive and encouraging things for our children to listen to. And this station goes all across America. Thank you for your consideration.
